Hi. We are so glad you have taken the time to get to know us a little more. We're neighborly. And yes, we are neighbors if you haven't picked up on that already. We are best friends and busy moms. We began our interior design business because it is a shared passion and we enjoy helping others create joy in their homes. We both also work together for a local real estate firm in the Greenville, South Carolina area.

can I only do the consultation?

absolutely! many people just need to discuss a project to get ideas and can take it from there!

are packages customizable?

we've found that in most cases a customized approach is the best way to give you the space(s) you want!

what is a design board?

conceptual design boards are provided digitally and are photos of suggested furniture, color schemes and decor for the general design of a space and will not include every item that is needed to complete a space. it can be used for creating a space exactly as neighborly has suggested or as an example for clients to purchase items on their own.

what is a design guide?

design guides are also provided digitally and include a summary of your design board along with detailed directions and shoppable links, some of which may have additional suggested items not shown on design boards.

what if I need additional help?

we also offer the option of coming in and setting up a room or space for you. this would essentially consist of everything in the DIY package + additional design fees for install.

how much do I need to budget for furniture and decor?

we can help you determine a budget based on experience but ultimately what you spend on the bigger items is up to you.

what if an item from my design guide is no longer available when I'm ready to buy?

we suggest buying items immediately to avoid items cycling out of a retailer. we are happy to provide an alternate for any item out of stock within 30 days of the delivery of your design guide.
